

Can Less Be More?

Prof. Dr. Jason Hickel

Professor Autonomous University of Barcelona

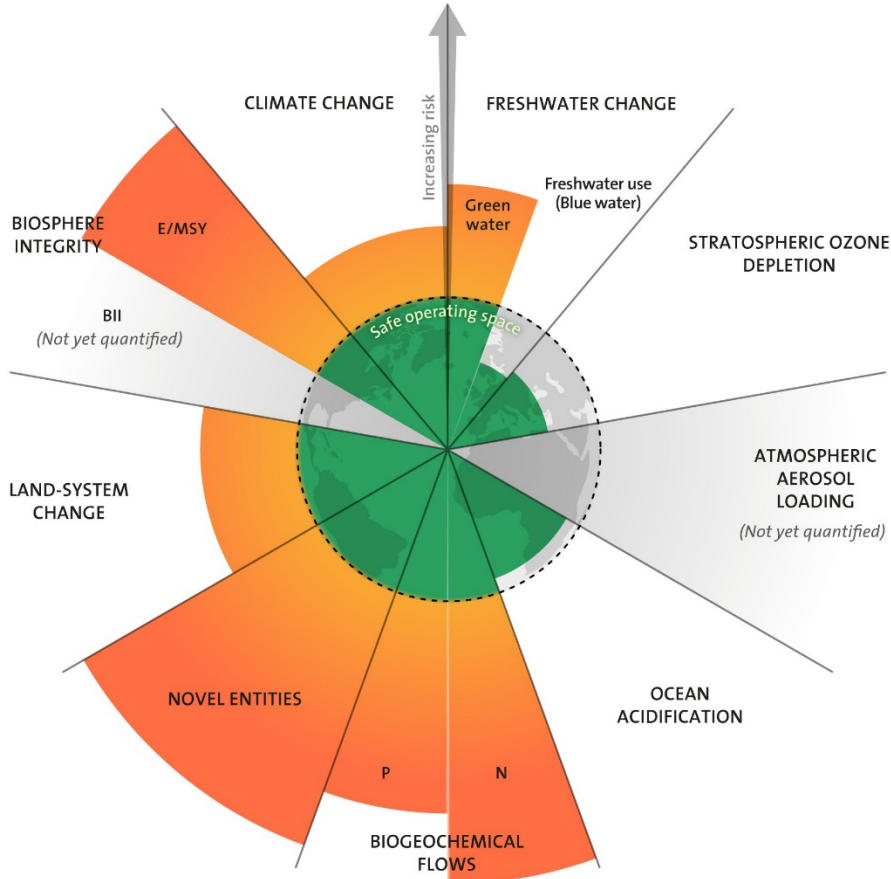

Our present trajectory

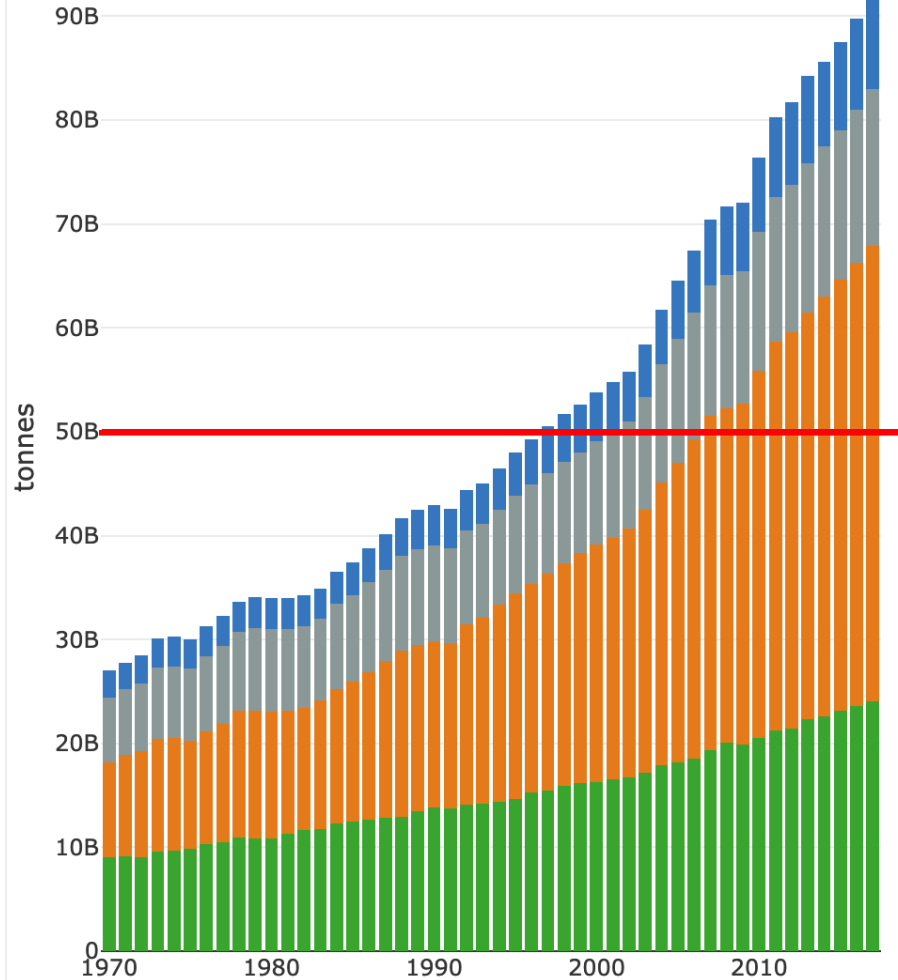

Current *policies* have us on track for 3.2 degrees Celsius (IPCC)

Climate is not the only crisis we face...

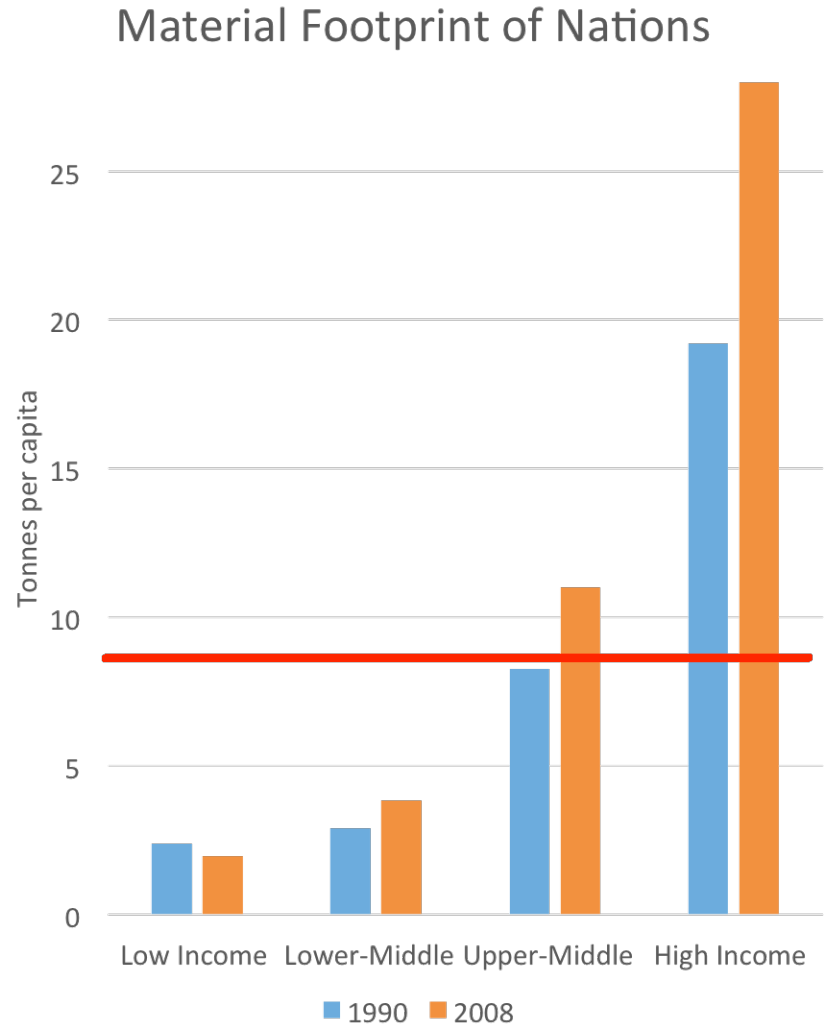

Global resource use

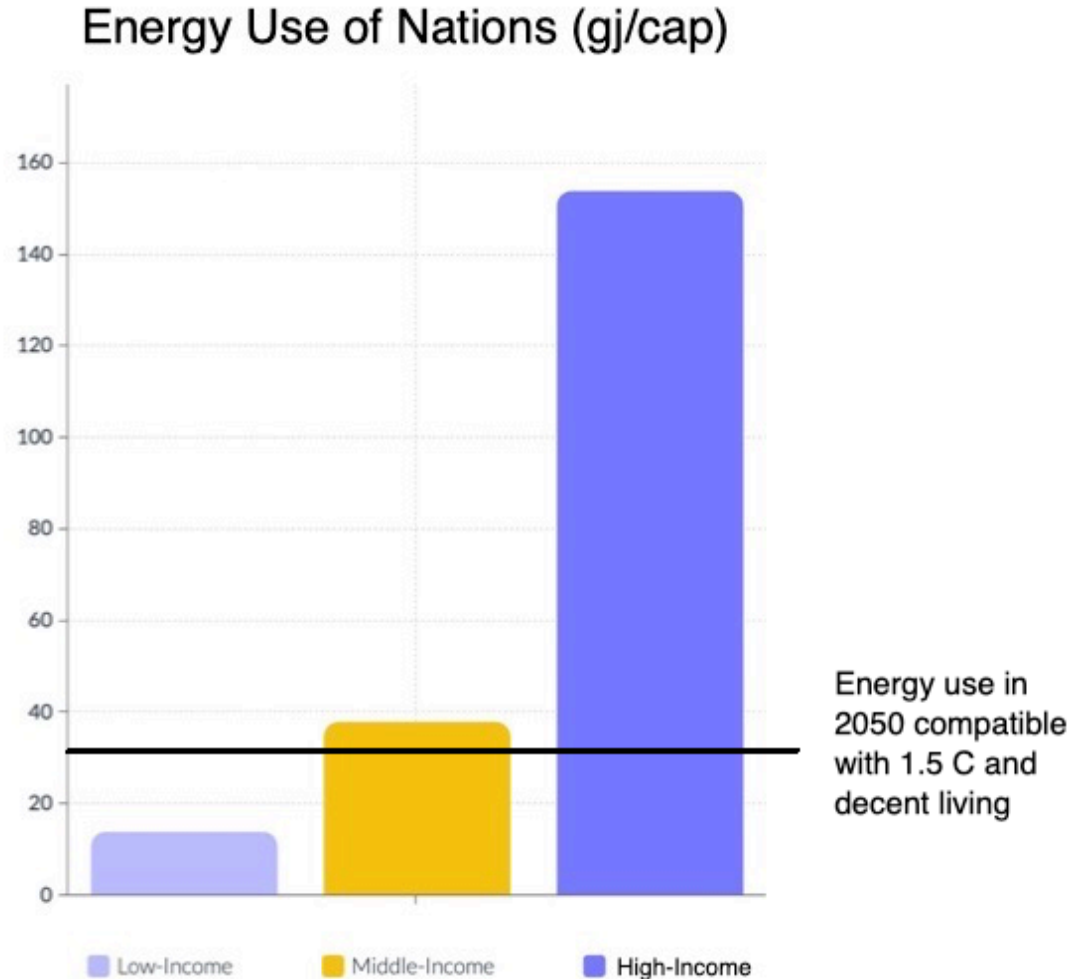

...*the* major driver of ecological breakdown.

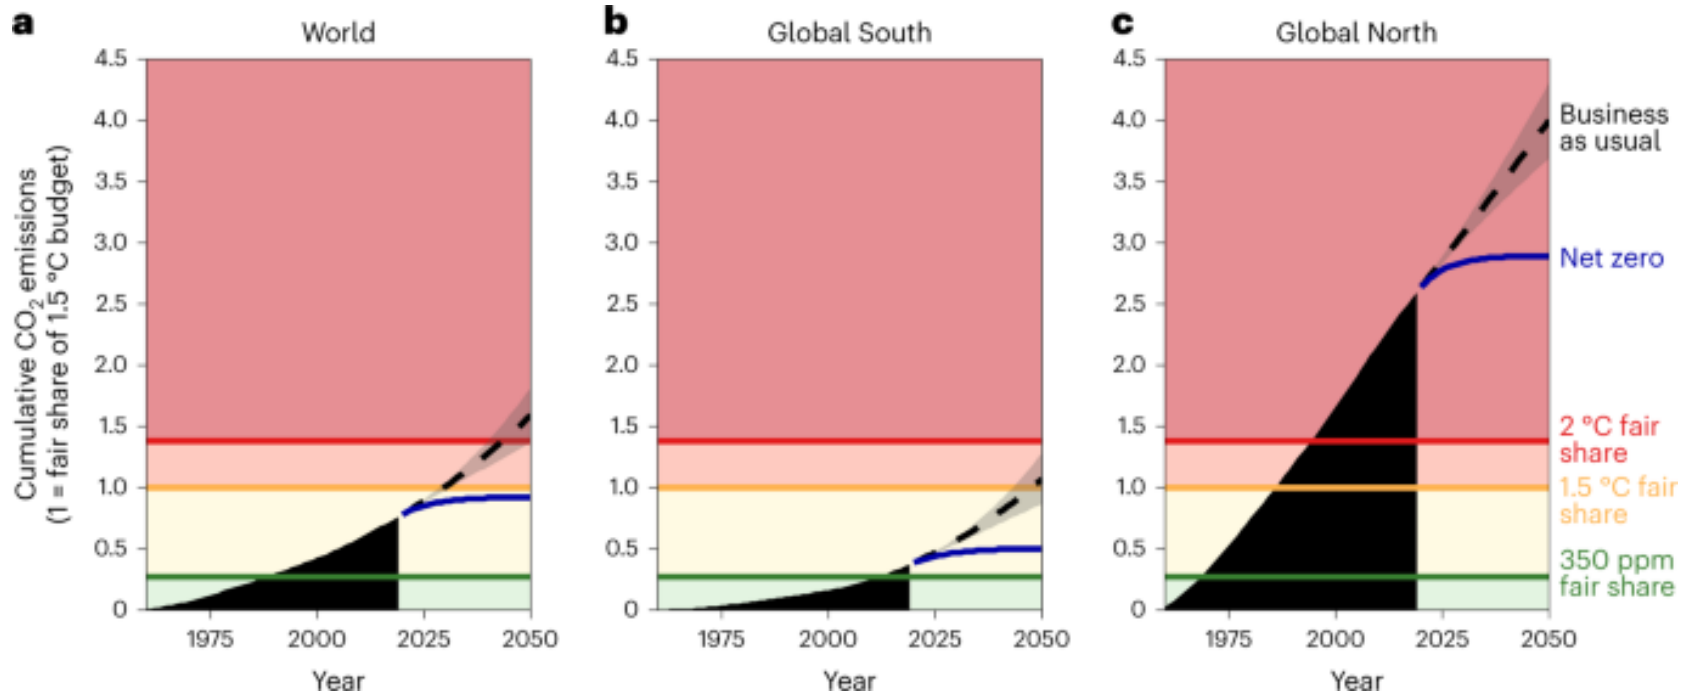

Rich countries must dramatically reduce excess resource use.

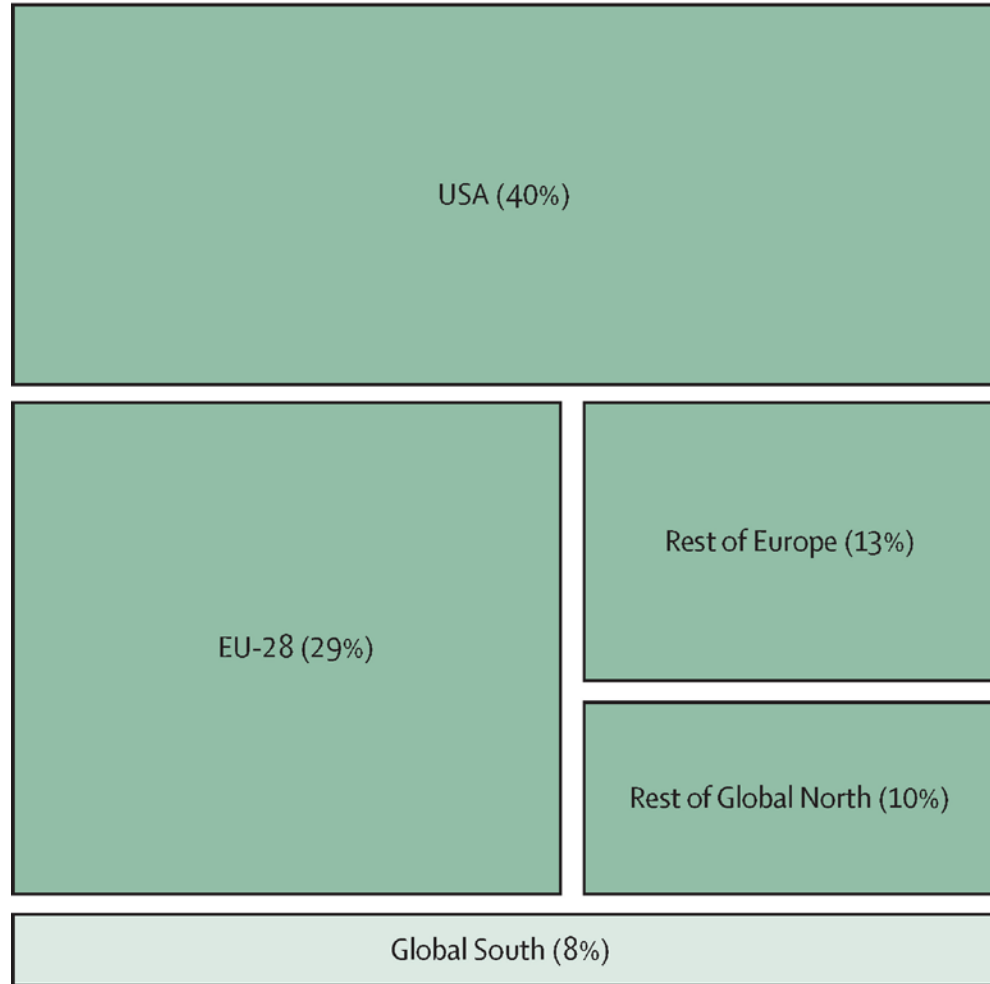

Rich countries must dramatically reduce excess energy use.

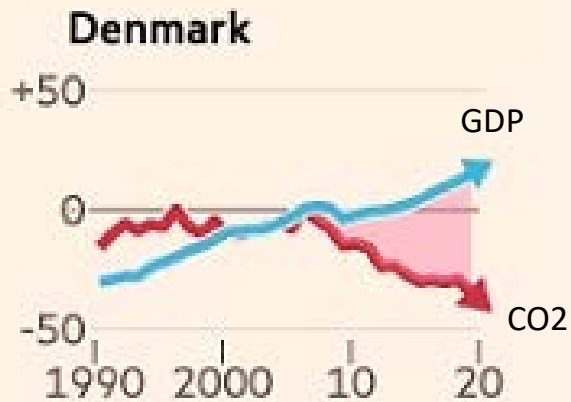

The rich countries of the global North are responsible for 92% of excess emissions.

Responsibility for climate breakdown

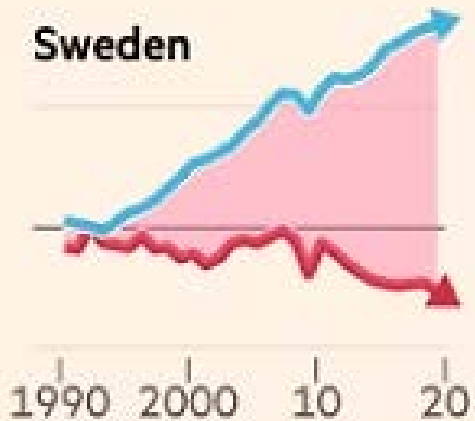

FINANCIAL TIMES

“Green growth is already here”
